Triumfant Wins Network Products Guide Reader Trust Award

Triumfant Compliance Manager Selected a 2008 Best Products and Services Winner in Automated Compliance Management

Rockville, MD – August 5, 2008 – Triumfant®, the industry leader in continuous monitoring and control software, announced today that Network Products Guide, a Silicon Valley Communications publication and a world leading publication on technologies and solutions has named Triumfant Compliance Manager a winner of the 2008 Best Products and Services Award. This respected annual award honors products and services that represent the rapidly changing needs and interests of the end-users of technology worldwide. As part of the tech-industry’s leading global awards program, this year’s Best Products and Services were nominated from all over the world.

Triumfant Compliance Manager dramatically reduces the time and costs necessary to achieve compliance with a variety of regulations—including Federal Information Security Management Act (FISMA), Federal Desktop Core Configuration (FDCC), Payment Card Industry Data Security Standard (PCI DSS), and custom IT policies—and is NIST Security Content Automation Protocol (SCAP) validated in accordance with the OMB FDCC security mandate for all Federal agencies. Based on the uniquely powerful Triumfant IT Intelligence™ platform, Triumfant Compliance Manager continuously verifies and enforces security policies on every PC, laptop, server and other device that operates in a Microsoft Windows environment to minimize the risk of breach and liability. Preconfigured policies allow rapid adoption of standards across the entire organization. Built-in remediation capabilities automatically enforce policies. Comprehensive reporting with various levels of detail creates evidence of compliance to minimize the effort required to satisfy a security audit and facilitate management on an ongoing basis.

“Increased end-user awareness and ongoing advances in technology are helping shape better products and services.” says Rake Narang, editor-in-chief, Network Products Guide. “Triumfant Compliance Manager is bringing improvements in achieving and

maintaining compliance by automating and simplifying ongoing compliance operations, helping organizations reduce costs and minimize risks.”

“These awards go to the best technology products every year and we are honored that Triumfant Compliance Manager has gained the Network Products Guide Reader Trust,” said John Prisco, Triumfant CEO. “Maintaining a compliant state and being audit-ready can bring an organization to its knees. We are committed to freeing our customers from this burden by providing them with the best products and services to automate this process.”

About Network Products Guide Awards

Network Products Guide, published from the heart of Silicon Valley, is a leading provider of products, technologies and vendor related research and analysis.
